

ULSTER OUTLOOK IS MATTER FOR WORRY

Sinister Rumors of Approach of Hostilities Alarm London.

Sir Edward Carson Makes Dramatic Entry Into Belfast.

New York March 20.—A cable to the Times from London says: "The startling suddenness of the outbreak in Ulster has become one of the great and ominous features of the present situation. The long threatened 'war' is now only a matter of days. The British Government is preparing for the military occupation of the Province."

The atmosphere in Ulster itself has grown suddenly electrical. Important movements may occur there at any moment and sinister rumors abound. There are several signs and portents pointing early and momentous action on the part of the Government. The cards have been doubled and the game is strengthened at the military barracks. In accordance with the intentions announced early in the week, with a view to preventing possible raids for munitions of war by the "covenanters," it is persistently reported that the arrest of the leaders of the Ulster volunteer force is imminent.

Meanwhile there is unusual activity among the Ulster volunteers. Forty members of the motor cyclist corps left Belfast yesterday under secret orders. Unionists are convinced that the authorities are contemplating some coup. It is stated in military circles that the Government has a comprehensive scheme for the seizure of extra troops into the Province within twenty-four hours and for holding all strategic points by an overwhelming force. The officers command the different districts received (Continued on Page 12.)

HAS CONDEMNED CEMENT BLOCKS

Building — Put Ban on 2,000 of Them.

CITY DEBENTURES

People Who Buy Them Will Not Lose Interest.

Hamilton is capable of making a large number of cement blocks. The city has condemned two thousand cement blocks made in the east end. The inspector and his assistants tested the products of three manufacturers and found that two of them were O.K. but that the third stood a present of only 400 pounds, whereas it should have stood 1,200. A number of buildings erected were ordered to be stopped and all the blocks made by the manufacturer destroyed. The building inspector intends to continue this campaign against poor materials until the Board of Control on Tuesday to authorize the city to use the testing apparatus of the local industry and charge the cost to those turning out cement blocks.

Hamiltonians who hesitate to take the baby debentures at the city hall until the last minute for fear of losing interest on their accounts in the bank in view of ten per cent. bank rates with the application, need not worry. The city treasurer, Mr. J. W. Fowler, today has decided to allow the small bonds, with application made until the actual issue, which will be next month some time, in view of the fact that the treasurer expects a large number of applications for the debentures. He has decided to allow the small bonds, with application made until the actual issue, which will be next month some time, in view of the fact that the treasurer expects a large number of applications for the debentures. He has decided to allow the small bonds, with application made until the actual issue, which will be next month some time, in view of the fact that the treasurer expects a large number of applications for the debentures.

HORSE SHOW

At the City Hall.

In the Board of Trade rooms this evening a meeting of those interested in the horse show was held for the purpose of organizing the horse show, which it was proposed to hold at the city hall grounds during the third week of June. The provisional committee is composed of Messrs. S. C. Menzies, George Hope, John Lennox, D. B. Wood, Wm. Kerr, and A. G. Bain, and they have the honor to announce that the large exhibitors that they will send the best they have to the Hamilton show.

AWARDED \$856

But His Costs Will Eat Up Half of It.

Robert C. Fowler, farmer, of Nelson township, will receive \$856 in interest as compensation for a place of his farm that will be used by the township in straightening out a road. This was the award announced by the board of three arbitrators who heard Mr. Fowler's claim and also the contention of the township that Mr. Fowler should get nothing except an interest in the road and a place of the old road, which will be appropriated to those contributing to the new one. Every farmer affected except Mr. Fowler gave part of his property for the new road, in order that a good highway could be provided, in the hope that if a permanent roadway between Hamilton and Toronto were established, this new section would be a part of it. Out of the sum he receives Mr. Fowler will have to pay his own costs, as the arbitrators have decided. Mr. Fowler, each to pay half. The three arbitrators were Messrs. J. W. Fowler, collector \$814.55, consequently Mr. Fowler must pay the other half of the amount of the award. The award of the finding was made today by Messrs. J. W. Fowler, collector \$814.55, consequently Mr. Fowler must pay the other half of the amount of the award. The award of the finding was made today by Messrs. J. W. Fowler, collector \$814.55, consequently Mr. Fowler must pay the other half of the amount of the award.

Bain & Co's Tempting List

Home of fancy groceries. Your early order will be appreciated. A. G. Bain & Co., 100 King Street East.

SIR RANFORD FLEMING
Of Ottawa, who, for the thirteenth time, has been chosen Chancellor of Queen's University. Sir Ranford having served twelve terms of three years each, is now entering upon his thirty-seventh year in that office. He will be installed on April 29th.

CALLED DOWN MARCHIONESS

(By Times Special Wire.)
Montreal, March 20.—The London correspondent of the Daily Mail says an extraordinary incident happened in the latter gallery of the House of Commons, during the debate yesterday on the Home Rule bill.

In the section of the gallery there were, among others, the Marchioness of Londonderry and Miss Violet Asquith, daughter of the Prime Minister. The Marchioness indulged in running comments on the speaker. After a time Miss Asquith asked the Marchioness to be quiet, as her remarks made it impossible to hear properly, but the Marchioness only became the more demonstrative.

Miss Asquith then called the gallery attendant to enforce the silence rule, and finally left her place and wrote a complaint to the Speaker.

THE EARL OF DUNMORE.
Who is now on an extended trip to the United States. He will spend most of his time in the West. The Earl is a distinguished soldier, having won the Victoria Cross in the Afghan campaign.

Saturday Tobacco Bargains.

MAY NOT BE TRIED UNTIL EARLY IN MAY

Gow and MacKay Likely to Face Judge Without Jury.

Punishment, If Convicted, Might Either be Fine Or Imprisonment.

It is not likely that James Gow and A. R. MacKay will face trial for nearly two months. Their release on bail yesterday afternoon was afforded them an opportunity to stall their trial until the next sitting of the general sessions, which will not open until May 5th. A prisoner on half does not have to elect for trial until just previously to the opening of the court. If by that time he has not elected, he has to face a jury, unless special privileges are granted him, this is a never done in Hamilton, only under circumstances making it necessary. A prisoner who remains in jail does not have to elect before that time either, but every Tuesday morning he is taken before a judge to state whether he wishes to be tried by a judge or jury.

It is very probable that Gow and MacKay will elect to face a judge and not a jury. Rumor had it this morning that General sessions, which will not open until May 5th, will be held in the afternoon. It was stated to the Times that he had been requested to withdraw from the firm of MacPherson, Glasgow, with which he has been connected for many years. Gow has been a partner, although not heavily interested, financially. He has drawn in salary in the neighborhood of \$2,500 a year, as was stated when the firm was formed against him by his wife was heard. He was ordered to (Continued on Page 11.)

SUICIDE OF A GIRL DUE TO GOW-MACKAY CASE

Feared She Would be Subpoenaed as Witness and Ended Her Life With Carbolic Acid.

Dependent upon worry over the possibility of having to testify in the hearing of James Gow and A. R. MacKay, which took place yesterday morning, a seventeen-year-old girl drank carbolic acid, with fatal results, according to information in the possession of the police. The girl, whose identity is withheld, was seventeen years of age, and of late had been frightened to remain out at nights more and longer than her mother approved of. She resided with her parents, who brought her with them to this country from England two years ago. For a time after coming out she behaved well, but during the past few months her actions had become such as to cause her parents much worry.

She was found last week, when the girl went out one evening and remained away over night. When she returned the following day she was unable to give her parents a satisfactory explanation of her whereabouts, and upon hearing of this she became frantic. It was then that the authorities received her name as a probable witness. One of the girls already subpoenaed gave the police the name of the unfortunate girl, and upon hearing of this she became frantic. It was then that the authorities received her name as a probable witness. One of the girls already subpoenaed gave the police the name of the unfortunate girl, and upon hearing of this she became frantic.

The girl was still breathing, and two doctors were immediately summoned, but despite their attention they were unable to save her life and she died about an hour later. The funeral, which was private, took place in Hamilton Cemetery.

GAVE HAMILTON FLAT TURNDOWN IN INTEREST OF PRIVATE OWNERS

Tory Government at Toronto Has Experienced a Great Change of Heart Within a Few Days.

Assisted by the smooth manner in which lobbyists at Toronto influenced the Private Bills Committee in connection with Hamilton's application for permission to lay a civic quarry, the local officials are disgusted with their treatment, and had many uncompromising things to say to-day about the powers that be in the Queen City. A week ago a large delegation of officials waited on the committee and despite the strenuous opposition at the time of the private bills committee, they managed to secure the sanction of the committee—at least they returned to Hamilton confident that the bill had passed. Later they were told it had not, and not being in a position to refuse this statement, they returned yesterday to Toronto to again fight the case. According to those who were there, a big change was apparent in the attitude of the members. They were a unit in refusing permission unless the question was first put to the people, and from the beginning Hamilton had not a chance. "The most glaring lobbying I have ever seen," declared Engineer Macdonald to-day, who fought to have the bill go through. Others said the same and emphasized that yesterday it had been like throwing one's self against a brick wall to take to the committee. As the matter stands now, the people will have to vote on the more to purchase the old Dunlop farm as a municipal quarry, but in any event the Government has the final say, as its permission has to be had to spend the money outside of the city limits. It is not likely that the question will be put to the electorate until next January, as to do so now would mean an expenditure of \$250,000. The other bill, calling for the exemption of the H.A.A. strongly opposed by Allan Stubbs, member for East Hamilton, has to be revised, and will come up again before the same committee next week.

Later they were told it had not, and not being in a position to refuse this statement, they returned yesterday to Toronto to again fight the case. HAVE \$16,000

St. Peter's Building Fund Campaign Successful.

Sixteen thousand dollars was raised in the three-day campaign held by St. Peter's Church, and the prospects of getting the remaining four thousand dollars are very good. All connected with the campaign are well pleased with the progress made and as soon as the needed twenty thousand is in the hands of the trustees, plans will be submitted for the new building, and operations commenced at the earliest possible moment.

A \$100,000 HOUSE

Large Apartment Building on Bristol Site.

Will be Most Modern of Its Kind in Canada.
Building operations are to be started immediately, on what is to be the most modern, and up-to-date apartment house in Canada. The situation is ideal, being at the corner of Hamilton and Bristol streets, and is known as the Gec. 22. Bristol property. The house is to cost \$100,000, and is being erected by a syndicate of prominent citizens. The house, which will be fifteen stories high, will be fitted up with the latest office facilities for doctors and dentists will be fitted up in the basement provided.

A FALSE STORY

Board of Education Not Sending Out Cards.

Secretary Foster, of the Board of Education, is at a loss to explain how the false story about the department sending out post cards to parents regarding a change in school hours originated. "I was told they were doing that in Dundas, but here we have not thought of such a thing, although I believe it was suggested some months ago," he said to-day.

LOUGHED HAS ENTERED APPEAL

Writes Issued in Two County Court Actions.

WILL FIGHT IT

Hotelmen and the Saturday Afternoon Closing.

The proposed legislation of Hon. W. J. Hanna to compel the hotelmen to close their saloons on Saturday afternoons will not meet with the approval of the local hotelkeepers. They say that they do not see the benefit which the ordinary man would gain from closing of the saloons on Saturdays.

NOT SETTLED YET

Is Latest Report About the C. N. R. Assistance.

(By Times Special Wire.)
Ottawa, Ont. March 20.—It is unofficially stated to-day that no decision has yet been reached by the Government in relation to the C. N. R. application for assistance, and that a pending investigation now in progress, under the direction of the Minister of the Interior, will be completed in a few days. The Government favors the application of the C. N. R. for assistance, but the character of the proposed security for a bond guarantee. Before anything is done another caucus of assistance committee party will be held. It is understood that the C. N. R. is in a position to take over and operating the C. N. R. or further guaranteed by the bonds, the Government favors the latter course.

GREEK CHURCH

Christopher Presents Building to Co-Religionists.

There are about three hundred adherents of the Greek Orthodox Church in the City of Hamilton, and they have been without any recognized place for worship up to this date. Owing to the munificence of Peter Christopher, a Greek merchant, who has bought, at a cost of \$15,000, the old Stanley Avenue Baptist Church, situated at the corner of Locke and Market streets. This building is to be remodelled to meet the requirements of the Greek Church. The extra cost will be met by the Greek community. This amount will be made up among the Greeks of the city, the church building itself having been given entirely by Mr. Christopher.

RUSHING THE WORK

The new main sewerage system is being erected in the east end by the Dominion Power & Transmission Company.

It is hoped that work on the proposed sewerage system will commence in a few weeks, and that the church building itself having been given entirely by Mr. Christopher.
